PROJECT

Empower migrant women and promote reframing of gender-sensitive integration policies (POWERING)

Business in the Community Ireland (BITCI) is a movement for sustainable change in business. Our purpose is to inspire and enable businesses to bring about a sustainable, low carbon economy and a more inclusive society where everyone thrives. As part of this work, we manage a number of government and ESF funded employability programmes including EPIC – Employment for People from Immigrant Communities and RISE – Refugee Integration and Employability. EPIC has been running since 2008, RISE since 2017. Since 2008 these programmes have supported over 3000 migrants from more than 100 countries, improving their skills and helping them to find employment and training. Further information is available here - <https://www.bitc.ie/business-action-programmes/business-action-on-employment/>
